Chief, FBID

50X1

FBID Progress report for May 1964

GENERAL

1. Cyprus Situation: There was very little change in the Cyprus situation as it affected Mediterranean Bureau operations, but planning to meet any future emergency continued. During their visit to Cyprus and the European Bureaus, Messrs. Larocque, Seely and [redacted] reviewed arrangements for possible further evacuation of personnel, establishment of emergency monitoring sites, and the status of evacuated personnel and dependents in England, Austria, and Beirut. More equipment, including seventeen receivers, was sent to the Austrian Bureau for safekeeping. Because of deterioration in the reception at Caversham of Middle East broadcasts, it was decided to return three Arab monitors and Chief Monitor [redacted] from England to Cyprus.

50X1

50X1

In early June the Deputy Chief and the Chief Engineer of the Mediterranean Bureau went to Israel to confirm arrangements for emergency monitoring in Tel Aviv of Greek, Turkish, and Cypriot broadcasts if evacuation of the Kyrenia/Karavas area became necessary. As a result of these talks, the Israelis agreed to accept a larger complement of FBIS people and also to permit direct FBIS monitoring for "flash" reporting. Recorders and transcribers have been shipped to the American Embassy in Tel Aviv for storage and the Austrian Bureau alerted to prepare six radio receivers for shipment to Tel Aviv if requested.

Meanwhile, U.S. Ambassador Belcher urged that the wives of several senior diplomatically accredited Americans, including the Chief of the Mediterranean Bureau, join their husbands in Cyprus for representational purposes. [redacted] and her two children will depart for Cyprus in mid-July to live in Nicosia, since the Ambassador still does not wish to isolate any dependent in the Kyrenia area.

50X1

2. Saigon Security: The sinking of the aircraft ferry "Card" in the Saigon River and the wounding of eight Americans in a grenade explosion on the street near the Saigon Bureau offices early in May brought tightened security measures in the city. Security precautions now include limitations on the number of Americans permitted to congregate and assignment of special troops and police to guard private homes during parties. There were no further incidents during the month, which may or may not have been the result of these precautions.

3. Services for DCI: In response to an urgent request from the DCI at a White House meeting, two items broadcast in February and March by the National Liberation Front of South Vietnam warning Americans and Vietnamese to avoid American installations in Saigon were located, reproduced, and handcarried to the White House Situation Room within an hour. A Soviet Literary Gazette article attacking the DCI was brought to the Director's attention at a staff meeting on 27 May and resulted in his personal request for a copy of the article.

4. NASA Request: At the direction of the AD/O, [redacted] formerly with the Agency and now with NASA, was supplied with a complete file of all monitored references to the 24 May New York Times article reporting the release of radioactive plutonium into the atmosphere over Africa as a result of the malfunction of a U.S. Transit satellite.

50X1

5. Hungarian Broadcast: The State Department expressed appreciation for the fast delivery of the text of a statement on improving American-Hungarian relations made by Professor Wigner of Princeton University while on a recent visit to Hungary. The Professor was informed by the Hungarians that the statement would be broadcast 6 May, the London Bureau was alerted, and the text of the statement was delivered to the Department of State by special courier.

6. Support to Baghdad Embassy: FBIS forwarded to the U.S. Embassy in Baghdad upon request a review of Soviet propaganda on the Kurdish problem since the February cease-fire in Iraq, noting that Moscow has welcomed the cease-fire but has expressed skepticism regarding the Iraqi Government's intentions to honor its cease-fire commitments and settle the Kurdish issue.

7. Support to USIS: Information on the content of Moscow broadcasts to Cuba during the period of Castro's new propaganda offensive on overflights was supplied in support of a project for the Director of USIA.

8. Daily Report Subscribers: Senator Mike Mansfield has become the first member of Congress to receive the four area Daily Reports on a regular basis. Ambassador Gerard Smith, Special Assistant to the Secretary for NATO Multilateral Force Negotiations, requested regular distribution of the USSR & East Europe Daily Report.

9. Service for Senator: Senator Claiborne Pell of Rhode Island submitted a request through the Legislative Counsel's Office for any West German comment on President Johnson's interview with the West German magazine Quick. The single monitored reference was sent by special courier to the Senator's office.

~~SECRET~~

SECRET**SUBJECT: FBID Progress Report for May 1964**

10. Havana TV Coverage: OCR/Graphics Register expressed appreciation for Key West Bureau's expeditious handling of the good-quality videotape of Havana's May Day parade.

11. New Lateral Services: Field bureaus instituted the following new services: The entire Key West file is being sent to the Miami USIA office; all references by Middle East transmitters to Western bases in Libya are being wirefiled to Headquarters, U.S. Air Force Europe; all items from North and South Korea are being wirefiled to the 508th USASA Group, Korea; and The WHO Epidemiological Bulletin is being wirefiled to Aerospace Medical Division, Office of the Surgeon General, USAF.

12. Laotian Crisis: Communist propaganda on critical factors in the Laotian situation was reviewed in two analysis items disseminated on the FBIS Wire. Advance copies of articles in the FBIS Survey on the Southeast Asia situation were supplied to the DD/I, ADCI, ONE, and Chief, DDP/FE, as well as to INR, Department of State.

13. Radio Propaganda Reports: The 15th report in the Cuban series examined Havana radio and press materials on the trial of Marcos Rodriguez, which involved an open display of factional strife in the Cuban leadership. A Radio Propaganda Report entitled "Conservative Doctrines Gain New Currency in Soviet Military Discourse" was issued as CD.246.

14. Daily Report Supplement: A 39-page Far East Daily Report supplement published 11 May contained the "Seven Letters Exchanged Between the Central Committee of the CCP and the Central Committee of the CPSU since November 1963, Published by the Central Committee of the CCP."

15. OCI's Use of Material: During May 14 percent of the items appearing in the OCI Digest were based wholly or in part on material supplied by FBIS.

16. Radio, Publications Exploitation: Eighty-seven percent of the Daily Report was devoted to broadcast material and thirteen percent to press scrutiny.

17. Publication Innovations: On 21 May the Publications Section converted part of the Middle East, Africa, and West Europe Daily Report to offset small-type format in preparation for full conversion of this book in June. Nineteen of the twenty 14-pitch typewriters ordered from IBM were received, and arrangements were made for the Addressograph-Multigraph Corporation to provide small-size mats at three cents each, approximately half the cost of the 10 x 15 inch mats presently in use.

SECRET

SECRET

SUBJECT: FBID Progress Report for May 1964

18. Coverage Coordination: The Panama Bureau assumed responsibility for coverage of important or special Latin American programs which are broadcast during hours when West Coast Bureau monitors normally are not on duty. This will reduce processing delays and simplify coordination. In the seasonal coverage switch between the German Bureau and the BBC, the German Bureau has taken over coverage of East German programs, which cannot be heard by the BBC, and the BBC has assumed coverage of all Moscow German to Germany in exchange.

19. New Moscow Broadcasts: Moscow added two new languages in its international broadcasting during the month. Moscow began broadcasting half-hour programs in Cambodian three times a week and half-hour programs in Thai twice daily. The Cambodian is being covered by the Saigon Bureau and the Thai by the Okinawa Bureau.

20. Visitors' Briefing: The following visitors were briefed in Headquarters on the mission and operation of FBIS: [redacted]

[redacted] CIIC/DIA; Col. John A. Beebe, designated Commanding Officer of USABVA in Okinawa, and Lt. Col. Harold Bentz, designated Liaison Officer with the Agency in the office of the Deputy Chief of Staff for Military Operations; and Philip Axelrod, Deputy Director of the State Department Operations Center.

50X1

50X1

21. Visitors to Bureaus: The Mediterranean Bureau was visited by Mr. Bronson Tweedy and [redacted] for briefing. Mr. Chi and Mr. Quang of the South Vietnamese Post Office visited the Saigon Bureau to study monitoring equipment and procedures in line with Vietnamese Government plans for starting a monitoring service of its own. Lt. Col. R. C. Menking, Chief of the Radio Division of STARCOM, and four other STARCOM officers were briefed on Okinawa Bureau operations.

50X1

22. Watch Office Orientation: Two groups of FBIS Wire editors and several other people from FBIS visited the OCI Watch Office on 7 and 8 May for an informative orientation in Watch Office procedures.

FACILITIES

23. Puerto Rico Survey: The Puerto Rico survey conducted by [redacted] was completed 28 May. [redacted] returned to Washington and [redacted] proceeded to Montevideo to make a preliminary survey of the southernmost South American countries. The Puerto Rico tests were conducted approximately 18 miles south-southeast of Mayaguez in the Lajas Valley where undeveloped land is available and road access is good. Although reception of some

50X1

550X1

SECRET

~~SECRET~~

SUBJECT: FBID Progress Report for May 1964

stations in Central America and stations in several southern South American countries was poor as had been expected, overall survey results exceeded expectations. Preliminary studies indicate a bureau in Puerto Rico could take over some 97 percent of the present Latin American coverage of both the East and West Coast Bureaus. Reception of press circuits from Europe, Africa, and South America was very good.

24. Communications Modernization: Planning for the modernization of the Headquarters teletype room was completed and GSA personnel began rewiring and carpentry work on 2 June. The present schedule calls for installation of new equipment in July.

25. Trans-Atlantic Cable: The Department of State has accepted the Press Wireless Ltd offer to provide London-New York cable service at a substantially lower price than is now paid for the Western Union Service. FBIS will share this service with the Department of State. It is hoped that it will be activated by 1 July.

26. Magnetic Recorders, Transcribers: Tests at the East Coast Bureau of IBM lightweight transistorized magnetic belt recorders and transcribers were completed with excellent results. It is planned to adopt this equipment as the standard FBIS recording and transcribing equipment.

27. Faster Key West Communications: The speed of the Key West Bureau's teletype circuit was increased to 100 words a minute on 15 May.

ADMINISTRATION

28. Personnel: During the month of May three employees entered on duty, two transferred, and none separated. The on duty strength as of 31 May was including two employees on Leave Without Pay. There were seven professionals and seven clericals in process during the month.

50X1

29. Local Severance Pay: All overseas bureau chiefs were delegated authority to administer foreign local severance pay plans.

Remarks:

This is the first monthly Production Report under the system becoming effective 1 May 1964. Bureaus now compute daily averages according to the number of days they are in operation and count all hours of coverage, backstop or regular.

Significant changes were noted in three Bureaus- Austrian Bureau words filed showed a heavy decline (possibly due in part to the approaching season of poor reception); Okinawa showed a large increase in hours monitored and a sizeable reduction in Words Filed; Hokkaido showed a better than 50% decline in Words Filed (again this may possibly be due to worsening reception for the summer).
