MEMORANDUM FOR: Chief, Executive & Planning Division
SUBJECT : Notice on Reorganization

1. The Director of Security would like to have an Office Notice issued immediately indicating that the reorganization relating to PTOS and P&M will be effective on Monday, 23 July 1973. The reorganization as it affects PS&I will take place in the near future and further details will be announced later.

2. I personally feel that we should include some comment to the effect that specific details on the implementation, relating to personnel realignments and physical location will be handled as appropriate by the Deputy Directors involved in these changes. I want this to be coordinated with Bob Gambino before we go to press.
