NOTE FOR: DDCI

SUBJECT: Proposed SIG/TT Study

As you know, the SIG/TT is looking for useful issues to address. If you agree, I will send the attached letter to Bill Schneider suggesting that the SIG and its Special Projects Committee examine certain aspects of the procedures for reviewing the technology transfer aspects of PRC visitor programs. The current built-in delays--something the government has done to itself--aggravate the process and often leave the students, US academic hosts, State, and the Intelligence Community less than satisfied. 25X1

You may recall that last July I wrote you about difficulties we were then having in getting letters sent to US academic hosts requesting needed information about the programs of some of these students. The letters are now being sent. The little study we now propose would deal with another but related problem. From earlier discussions with people who support the SIG/TT, we believe that they would welcome the opportunity to address the problem. 25X1

Chairman
Technology Transfer Intelligence Committee
