NOTE FOR: DCI

Bill:

Re future travel plans.

--I have a talk in Atlanta on 15 September to the American Society for Industrial Security. I imagine it will take the better part of a day to go down and come back.

--I'm scheduled for an indications and warning conference with the Army at Fort Huachuca on 5, 6 and 7 October.

--I have accepted an invitation to address the Association of Old Crows, i.e., company officials involved in electronics and electronic warfare, on 13 October in San Francisco, to be followed by a talk to the World Business Forum and Young Presidents Association on 14 October there. I would then plan to leave from San Francisco and go to [redacted] during the next week, returning here on Sunday, 24 October.

STAT

As far as leave is concerned, I have no plans and will catch it as it comes. Peg and I may bail out for a weekend or two during the remainder of the year. With no fixed plans on the books I can easily work around your vacation and/or travel plans.
