no. 2, p. 113-124.

DESCRIPTORS: *Light, Motion, *Velocity, Solar
radiation, *Relativity theory, *Optics.

The article deals with the direct experimental veri-
fication of the relativistic thesis concerning the in-
dependence of the velocity of light and the velocity of
the source of radiation relative to the observer. The
experimental setup is described and the results are
given of a comparison of the times of travel over a
