HOW DO YOU KNOW WHETHER YOUR COMMUNI-
CATIONS REACH THEIR GOAL? (Comment Savoir si
vos Communications Atteignent Leur But?). [1960]

The following suggestions are offered for improving
communications. Learn everything possible about the
interests, aspirations, and dislikes of the persons you
seek to reach. Learn what those persons think and
know about you. Then check to see if you have said the
necessary things, to the necessary people, in the
necessary manner. Periodically compare your results
with those of others. Continually seek to adjust your
efforts according to your results. Develop some way
of checking each year to see whether your communica-
tions have reached their goals.

Glutethimide (Doriden) which has proven useful as a
drug for falling asleep and staying asleep is preferred
particularly by intellectuals because of the absence of
after-effects. But in certain cases caution in the use of
the drug seems advisable. Cases from the literature
are discussed, in which cerebral convulsions occurred
in connection with glutethimide abuse. Whether we are
