MEMORANDUM FOR: Deputy Director for Support

SUBJECT : Chain Bridge Traffic

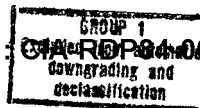

REFERENCE : Memo dtd 23 Jul 68 to D/L fr DD/S, Subject: Conversation with Mr. L. E. Brett, Jr., Resident Engineer, Virginia Department of Highways, Concerning Chain Bridge

1. This memorandum is for information only.
2. The various studies made by the engineers of this Office have indicated that all of the proposed solutions to subject problem, with the exception of access denial to Glebe Road, are not cost-effective solutions (i.e., the proposals were excessively expensive, did not provide either immediate or long-range relief, or were some unsatisfactory combination of the two extremes).
3. Accordingly, I concur in your intention stated in the referenced memorandum to drop further proceedings on this matter.

John F. Blake
Acting Director of Logistics
