 did not respond  
to our inquiry through   
on our proposed change to Charter.  
It is probably best to wait before  
proposing new legislation. Current  
procedures available to us provide  
some measure of protection if we choose  
to use them.

MEMORANDUM FOR: See Distribution

FROM :

██████████  
Chief, Legislation Division/OLC

STATINTL

SUBJECT :

Legislative Programs for the Second Session of  
the Ninety-Sixth Congress

1. The Office of Management and Budget requires that the head of each Federal agency submit a proposed legislative program for Administration clearance each fall for the session of Congress which begins the following January. This memorandum initiates the process of formulating the Central Intelligence Agency legislative program for the Second Session of the Ninety-Sixth Congress and the Agency's contribution to the Intelligence Community program that will also be submitted by the DCI.

2. The following guidelines are provided to aid your component in the preparation of proposals for inclusion in these legislative programs:

--It is not necessary to repeat items in the current legislative programs; i.e., Protection of Intelligence Identities, Relief from the Freedom of Information Act, Changes in the Hughes-Ryan Amendment, Revised CIA Firearms Authority, Educational Travel Benefits, and Death Gratuities. Items not accomplished this year will be carried over.

--While the passage of Intelligence Charter Legislation this year remains possible, the likelihood is not great, and legislative proposals should be premised on the proposition that Charter will still be an issue in 1980.

INTERNAL USE ONLY

INTERNAL USE ONLY

--It is not necessary to submit specific statutory language, or to specify a statute to be amended. A description of each problem or goal, accompanied by an explanation of why it is thought that legislation is necessary to solve or achieve it will be sufficient. It would also be helpful to have an outline of testimony to be presented in support of each proposal, and an indication of any potential problems (e.g., security, cover, etc.) in pursuing a suggestion through the legislative process.

--All suggestions should also be accompanied by your component's views as to whether or not the proposal has Intelligence Community applicability, i.e., whether the proposal should be included in the Intelligence Community rather than the CIA legislative program.

3. The Senate's inclusion of our Educational Travel Benefit in the FY 1980 Intelligence Authorization Bill (and its expected retention in Conference) sets an important positive precedent for use of the FY 1981 Authorization Bill for similar purposes next year.

4. Failure to include a proposal in the legislative programs submitted to OMB in the fall can considerably reduce chances of obtaining Administration support for the proposal later on.

5. I realize that it seems rather early to be thinking about legislative programs for next year, but I believe that sufficient lead time is necessary to insure that the CIA and Intelligence Community proposals are sufficiently thought out and presented in as specific a form as possible.

6. I would appreciate having your proposals by 3 August 1979 so that we can proceed to discuss and evaluate them. Your cooperation in this endeavor is much appreciated. A memorandum similar to this one will be sent to appropriate offices throughout the Intelligence Community.
