STATINTL

MEMORANDUM FOR: [REDACTED]  
Career Management Officer, DDA

FROM : [REDACTED]  
Acting Chief, Management Staff, ODP

SUBJECT : The Program of the Center for the  
Study of Intelligence (AIUO)

STATINTL

Listed below are five suggestions for projects for  
The Program of the Center for the Study of Intelligence:

- The cost effectiveness of automated aids to the intelligence production function.
- The process of integrating "soft" information with "hard" facts in analysis.
- The value of ADP techniques in the manipulation and correlation of data in the analytical process.
- The effect of organizational instability and uncertainty on the quality (accuracy) of estimates.
- The effects of policy and political decisions on objective reporting (collection) and estimation (production).
