MEMORANDUM FOR:

Assistant Director for Special Operations

Subject: OSO Requirements for Intelligence Information

- Reference: (a) OCD Memo to OSO, 16 January 1947, Subject: General Requirements for Raw Intelligence Information.
(b) OSO Memo to OCD, 5 February 1947, Subject: same as reference (a).

1. In reference (b) you suggest a daily accession list from which OSO can select items of interest from certain categories of information. Such a list of over 700 documents received daily is not only prohibitive from a typing standpoint, but would present such a mass of material that its usefulness to an office would be doubtful. It would also greatly delay procedure and delivery of material.

2. In developing the Reading Center it was visualized that eventually a Reading Panel would be necessary, consisting of representatives from other CIG offices and agencies, who would have the following functions:

a. Serve as a liaison officer between the Reading Center and their office, to keep constantly alert to the specific interests of various desks of their office, and to advise the permanent members of the Reading Center of those interests.

b. Recommend distribution to their offices of information such as items 4 to 10, inclusive, of reference (b).

c. Serve as expeditors on urgent requests by their offices.

d. When requested, inspect material to determine whether information furnished from CIG sources is in correct and complete form for dissemination.

3. It is believed that the interests of OSO will best be served by the early assignment of an OSO representative to the Reading Panel, and such assignment is recommended. If you concur it is requested you inform this office of the name of the person so assigned. Final details of duties, procedures, etc. can then be arranged by my Dissemination Chief.
