ATTN OF:

5 May 1982

SUBJECT: DCI Briefing to PFIAB (Your Memo, 3 May 82)

[Redacted]

25X1

Deputy Executive Secretary
National Foreign Intelligence Board

The Assistant Chief of Staff, Intelligence, US Air Force, is concerned that community guidance does not focus sufficient emphasis on Intelligence Community support for warfighting, crisis and contingency operations. The US has become increasingly dependent on national peacetime-oriented space-borne assets and associated communications with little assurance of their survivability in combat. Current world events serve to highlight this concern for our ability to support Service combat missions.
