SECRET

MEMORANDUM FOR MR. BRONSON TWEEDY,
CHAIRMAN, NSIC WORKING GROUP

SUBJECT: Intelligence Production Studies

Attached for Working Group consideration are suggestions for three studies of intelligence production. I have discussed these with Andy Marshall, whose comments are also appended. I agree with Andy that it may be best to start with the study on Yugoslavia and do the ones on Chile and NSSM 108 later in the year.

I have made some changes in response to Andy's comments, but I feel, as Andy does, that before the studies actually get under way there will be a need to spell out the methods and issues in more detail. I suggest that this be done by the study groups when they are formed.

Ray S. Cline
