MEMORANDUM FOR: Director, FBIS
Director, NPIC
Director, ODE
Director, ORD
Director, OSO
Director, OTS

FROM: Chief, Planning Divison, PRS/ODDS&T

25X1

SUBJECT: SRI Capabilities Briefing

25X1

1. SRI International of Menlo Park, California will present a capabilities briefing 1 October 1981 at 1300 in the DDS&T conference room (6E60).

25X1

2. Specific capabilities to be addressed include:

25X1

- Signatures and detection techniques for possible collection use against high energy laser and particle beam weapons test areas.
- Low frequency electromagnetic signatures of various types of military equipment such as missiles, aircraft, submarines, and fixed installations.
- Detection techniques that may be useful in collection against suspected nuclear, chemical, or biological warfare production or storage facilities.
- Field perimeter security sensors and systems.
- Computer operating system and data base security techniques.
- Quick reaction development capabilities for deployable sensors and systems.

3. The SRI briefing team will be led by Director, Special System Office. I expect the common security level to be TK, SI.
