MEMORANDUM FOR: Director of Technical Service

FROM: [redacted] 25X1
Chief, Procurement Management Staff, DDS&T

SUBJECT: [redacted] 25X1

REFERENCE: Memorandum for DDS&T from [redacted] 25X1
Assistant General Counsel, dated 2 September 1982
(OGC 82-08032) [redacted] 25X1

[redacted] 25X1

The reference memorandum with its associated attachments is self-explanatory. Basically, [redacted] requests may be found in paragraph 3, which I have taken the liberty of highlighting. He would like [redacted] to provide an affirmative statement concerning the declassification of one or more of the patent applications in question "in their present form." Unfortunately, I am unable to assess the relevancy of [redacted] 9 June memorandum to this request. It appears to be in conflict with the declassification "in their present form." Could you have your guys ferret this out and provide a response to [redacted] on this issue. I would appreciate a copy of your response. 25X1

Thanks,
