MEMORANDUM FOR THE CHAIRMAN, NATIONAL FOREIGN INTELLIGENCE BOARD

SUBJECT: DCID on Foreign Broadcast Information Service

(S) The subject DCID is approved with the following changes:

a. Page 2, line 5 - delete "and analyze."

REASON: DIA is not aware that the FBIS has expanded its mission area to include "analysis" of collected information, which implies an intelligence production function.

b. Page 2, paragraph 3.a., line 1 - delete "analysis."

REASON: Same as a. above.

c. Page 2, paragraph 3.b. - rewrite to read "coordinate this function with other components of the Intelligence Community in order to meet their individual requirements; and"

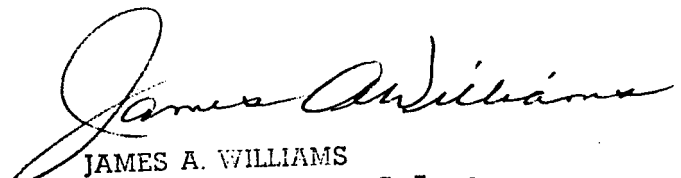

REASON: This better defines the coordination responsibility.

d. Page 3, paragraph 4.a. - rewrite to read "may conduct supplementary activities in monitoring and processing to meet individual requirements, provided that the FBIS is informed of such activities;".

REASON: This clarifies the relationship between CIA/FBIS and the rest of the Intelligence Community.

e. Page 3, paragraph 4.b. - rewrite to read "will advise FBIS of their requirements;".

REASON: Same as stated for d. above.
