1. I have made arrangements to meet with Mr. Hugh Montgomery of NAVMAT (his office is located at 800 N. Quincy St., Room 1018) at 2:30 pm on 21 October 1982 to discuss the implementing procedures necessary to enable Agency annual reviews of contractors of interest independent research and development (IRAD) proposals. This meeting is the first step in the implementation of a formal procedure in accordance with the reference tasking. Since ORD has been named as the organization responsible in the DDS&T for the technical evaluation of contractors' IRAD proposals, I would like to invite you or your designee to attend the aforementioned meeting.

2. For your information, Mr. Montgomery has invited Dr. Frances Renswold of the Air Force Systems Command and Dr. Karl Bastress of DARCOM (Army) in an attempt to provide a uniform procedure for reviewing agencies' inputs on contractors of interest IRAD submissions. Please advise your ability to attend the meeting or provide the undersigned with the name of your designee. Appreciate your assistance and cooperation in this matter.
