MEMORANDUM FOR: Deputy Director for Administration

FROM: [redacted] Director, Intelligence Community Staff

45-3

STAT

SUBJECT: Joint IHC/DODIIS Contract with MITRE

1. The staff of the Information Handling Committee (IHC) has been working closely with elements of DIA and the COINS PMO in the development of improved data communications networks serving production elements of the Intelligence Community. In furtherance of our common objectives, I have approved the execution of a contract with the MITRE Corporation to provide joint engineering and technical support to the IC Staff and DIA/RSE. A member of the IC Staff will be the COTR on this contract and funding will be provided by DIA. Virtually all facets of intercomputer communications among both DOD and independent agency elements of the Intelligence Community will be addressed under the terms of the proposed contract, including the minimum safeguards now being developed by the COMPUSEC initiative.

2. Support required to be given to this interagency initiative by the Office of Logistics has been discussed by members of the IC Staff with the appropriate members of the staff of the Office of Logistics. They are aware of no legal or administrative impediments to this initiative. Since I consider it to be very important that we encourage cooperative efforts in this critical area of Community concern, I deemed it appropriate to notify you that this initiative has my approval and support and to request your cooperation and that of the Office of Logistics in the management and administration of the proposed contract.

3. [redacted] Chairman of the IHC, will be the IC Staff member responsible for our involvement in this joint contractual effort. If you have any further questions concerning this request, please have appropriate members of your staff contact him [redacted]
