1. Executive Director 7D 55 Hqs				To 3: John: As I mentioned this morning, ▢ has no problem with c25X1 changes in the management of SAFE. They do want to insure, however, that we place a high priority on their large Data Base Management System. I have assured him that we will not leave them holding the bag. He will brief Williams on our discussion.

Dear

I appreciate your interest and share your concern in any reorganization or change in leadership of the SAFE Project that may impact negatively on the progress of the project. As Harry Fitzwater discussed with _____ , the   STAT intent of the realignment of the Consolidated SAFE Project Office (CSPO) is to strengthen our joint development of SAFE. We believe it will improve the bonding between CSPO and the rest of the Office of Data Processing (ODP) to insure the total commitment of the resources of that Office to accomplish SAFE's goals.

The appointment of _____ as Director of CSPO, replacing _____   STAT is consistent with the above goals. Bob is currently the Associate Deputy Director for Processing, the component of ODP which provides the majority of support to CSPO. Bob has considerable experience in managing the development of large ADP programs. He is a good leader and manager and will work well with

_____   STAT

_____ will remain available to provide continuity for SAFE as required.   STAT
Both the Director of Data Processing, _____ and Harry Fitzwater will
remain deeply involved in the management of SAFE in the same fashion as they are
today. They will continue to work with _____ and your senior management to   STAT
insure your interests receive proper attention.

Sincerely,

John N. McMahon
Deputy Director of Central Intelligence
