SUBJECT : The Inspector General's Survey of Foreign
Intelligence Collection Requirements

1. The draft comments forwarded with this memorandum constitute my recommendation to the Deputy Director for Intelligence concerning the Directorate position on the proposals in the IG survey. The positions taken on the survey's original recommendations and the rationale underlying the restatements were developed with the members of the DDI review team: [REDACTED]

25X1A9A

The final responsibility for the restatements and the comments as you have them here is mine, however.

2. I would appreciate any comments you may have. It would be useful to have them by 15 March.

3. Two words of caution: So far we have had no substantive, detailed discussions with other Directorates on the proposals in the IG survey and none should be undertaken on the basis of the attached document. In distributing the IG survey, Admiral Taylor said: "Under no circumstances will the report be circulated or discussed outside the Agency at this time."
