1982-83 COMBINED FEDERAL CAMPAIGN
CENTRAL INTELLIGENCE AGENCY

- Campaign was conducted from 20 September through 29 October 1982.
- Goal was \$307,000 (Set at 10% over the achievement of the previous year).
- At the completion of the Campaign, a total of \$289,139 (94.2% of Goal) was achieved.
- Special DCI appeal to all employees was made on 27 December 1982. This resulted in an additional \$1,823 in contributions.
- Final Campaign Results: \$209,962; 94.8% of Goal. This was an increase of \$11,788 or 4.2% over the previous year.

Because of security considerations, not all of the normal CFC statistics (e.g. number of employees) are reported to CFC Headquarters. The above figures, however, are the result of an appeal having been made to every employee in the Headquarters area.
