Meeting with Harry Fitzwater, DDA/CIA, Concerning IC Computer Security Project

1. On 8 April 1983, [Redacted] and I met with Mr. Harry Fitzwater, CIA/DDA, and Jim McDonald of his staff to discuss the IC Computer Security project. He agreed that the project team should develop cost estimates for fixing what we have in place and to identify technologies that need to be brought into place in order to provide an adequate measure of security.
