MEMORANDUM FOR: Acting Director of Central Intelligence
Executive Director
Deputy Director for Intelligence *RK*

FROM:
Deputy Director for Scientific and Weapons Research

STAT

SUBJECT: Control of Unclassified Technology with Military
Application

1. Secretary Weinberger recently signed an order that should help stem much of DoDs loss of militarily significant technology through open source publications. It establishes a system of controls for protection of technical data that is produced by or for DoD. The order will be in effect for 90 days, during which time they hope to affect a permanent change to their policy.

2. DoD should be congratulated for this action. We believe it should go a long way toward preventing Soviet access to sensitive information. A copy of the order is attached.
