**SUBJECT: Metropolitan Washington Council of Government  
Reports**

3. These reports, although informative, are not timely for any current Agency action but will be helpful tools and aids in any future Agency planning exercises. Updated and revised reports for 1971 COG accomplishments and activity will be published in 1972 and should contain plans regarding programs for proposed future consideration and implementation. Such reports are used as reference and planning guides where applicable but seldom, if ever, contain any binding rules which the Agency must follow. The overall value of the reports should be assessed as proposals for the consideration of the NCPC and other COG member units.

4. It is recommended that the attached letter be sent to the National Capital Planning Commission in reply to their referenced correspondence.
