"Electromagnetic Load Selection in Electric Machines with Thermostable Insulation," M. Yu. Shukhatovich, Candidate in Technical Sciences, Institute of Mining Mechanics of the Academy of Sciences of the USSR, 24 pp.

"Vest Elektro Prom" No 3

The author presents a set of mathematical formulas for the calculation of a suitable electromagnetic load for electric machines. This choice is particularly important in view of the recent adoption of new types of insulators which are constructed

USSR/Electricity (Contd)  
Load, Electric  
Mathematics - Applied
