MEMORANDUM FOR THE RECORD

SUBJECT: Relocation of OTS Elements from [REDACTED] to [REDACTED] (S)

25X1A

25X1A

FROM: [REDACTED] Project Engineer, RECD/OL

25X1A

1. (S) Per telecon on 21 June 1978, [REDACTED] OTS Focal Point Officer, indicated that approval in principle had been given by the DDA and the DDS&T for OTS to go forward for project approval by the DCI.

25X1A

2. (S) The revised funding requested, \$750,000, is based on approximate cost factors given to [REDACTED] by DC/RECD. When [REDACTED] was made aware of RECD concerns of the possibility of insufficient funds due to a budgetary estimate being based on insufficient detail, he appeared more concerned about going back to the DDA and DDS&T for more money at this time. OTS is obviously hoping they will have an excess of money.

25X1A

25X1A

3. (S) As funding is identified within the Comptroller's Office [REDACTED] and approved by the DCI, Mr. [REDACTED] will recontact RECD to begin detail planning. Mr. [REDACTED] has already contacted [REDACTED], to involve him concurrently with RECD.
