1. On 9 August [REDACTED] of your office visited the [REDACTED] formerly termed [REDACTED] to view possible locations for the building described in the referenced memorandum and discuss proposed design of the building. At that time it was explained that responsibility for the testing to be performed in the Test Facility was being transferred from [REDACTED]

2. It is suggested that any further work by your office on plans for the test facility be withheld until the [REDACTED] Project Officer for this work presently returning from a PCS overseas be allowed to review the proposed test facility and test methods to determine what details are desired. The exact square footage of work area necessary must be resolved as well as the effect upon planned systems tests of a metallic structure. It is understood that Mr. [REDACTED] of your office will be available to advise what areas at the [REDACTED] would be desirable to construct the Test Facility.
