STAT

Policy and Procedures for Management for Information Handling Systems

1. [Redacted] is a prototype of an oversight management system for IHS projects in the Agency. We anticipate bringing the manpower on board in the IHSA to begin implementation of it in FY 83.

STAT

2. After some experience with the oversight management process based on [Redacted] for IHSs, it is the intention of this office to write an HR. We believe this experience with the interaction of standard oversight management procedures with specific Agency environments is essential to structuring an effective program.

STAT

3. It is requested that [Redacted] be extended for one year. This will give us time to gain experience with an oversight management process in the Agency and begin to draft the derivative HR.
