MEMORANDUM FOR: Deputy Assistant to the President
for National Security Affairs

SUBJECT: National Space Strategy

1. Attached is a marked up copy of the draft National Space Strategy that shows recommended changes which were not appropriate for discussion at the IG(Space) meeting. The changes to the text are substantive and are predominantly in the national security section. With the possible exception of our proposed new implementation paragraph on technology transfer, we do not believe that they would be the subject of controversy.

2. We recommend that the drafting group be reconvened to accommodate these changes and any changes desired by other agencies, in accordance with the decisions that we will reach in today's IG(Space) meeting. I also recommend that the final draft be sent to the SIG(Space) members for their formal comments and a SIG(Space) meeting be convened, if needed.
