SUBJECT: GISS Meeting - 12 March 1984

Attached is [redacted] report to the GISWG. I would appreciate your
immediate review of this document and wish to discuss your views and comments
at our next GISS meeting. I have scheduled one for 12 March 1984 in [redacted]
at the Community Headquarters Building between 1000 and 1200 hours. The short
notification time is driven by the fact that DMA, which will be acting as the
contracting office for current video disc efforts, needs our comments NLT COB
on 15 March.
