September 1984*

PREFACE

The *Directory of Officials of the Hungarian People's Republic* identifies individuals who hold positions in selected party, government, economic, scientific, and public organizations. It also provides a guide to the internal structures of some of these organizations.

Dates of Information. The date columns list the date an individual either assumed or was first identified in a position and his or her most recent identification in that position. The right-hand column is selectively updated approximately every two months when information is available. It does not include dates for members of the National Assembly and of the Hungarian Socialist Workers' Party Central Committee on the assumption that the incumbents hold these positions for a specified term.

Transliteration. Hungarian uses the Latin alphabet with the addition of diacritical superscripts over the letters *a*, *e*, *o*, and *u* to indicate pronunciation. This directory omits all diacritics.

Personal Names. Hungarian personal names consist of a given name and a family name. It should be noted that a married woman's name is formed by adding the suffix *-ne* to her husband's given name. Thus, Mrs. Jozsef Nagy appears as Jozsefne Nagy. This publication lists the full name of each individual whenever it is known. The family name appears first in bold type, followed by the given name. In rare instances, a family name consists of a double name that appears in either a hyphenated form or as two words.

Additional Directory Entries. The directory includes political party affiliation for each individual whenever it is known or can be assumed from the position held. It also lists some academic degrees and military and ecclesiastical ranks. The names of organizational components are standardized. Street addresses and transliterated names are provided for some organizations. Many economic and commercial organizations are listed by a cable designation or by a commonly known transliterated name.

An index to major organizations and a personality index follow the directory listing. Duplicate names in the personality index refer to different individuals.

SECRET

CONFIDENTIAL

V. Regional and Municipal Party and Government Officials

Hungary is divided into 19 counties called megyes. The administrative headquarters of each megye is listed as the seat. There are five cities of county rank plus the capital, Budapest. Each of the 19 megyes and six municipalities has an HSWP apparatus, a government apparatus (the council), a youth league committee, and a mass organization unit.
