PREFACE

This directory, designed to meet the need for a functional reference guide to officials of the Bulgarian government, political parties and other prominent public organizations, has been prepared from information received through January 1975 and for a few entries through April 1975. In some instances, subdivisions known to exist under major components are listed whether or not the names of the incumbents are known.

It should be noted that Bulgarian personal names consist of three parts: a given or Christian name, a patronymic (the given name of the father) and a family name (either the given name of the grandfather or a family name in use for several generations). In everyday Bulgarian practice, a person is referred to by his given name and one surname, usually the family name; however, the use of the patronymic as the surname is common, especially among the peasantry. In this directory, citation of names follows customary Bulgarian usage--given name followed by one surname; however when known, the patronymic is included. In some cases identification of all three name elements, using currently available data, is impossible. Therefore, the same individual may be listed under both his patronymic and his surname. In those cases where it is known that a given individual uses his patronymic as his surname, the patronymic is entered as the surname and the surname appears in parenthesis in the patronymic position (after the given name).
