	Outlook and Implications for the US	
	At this stage, none of these challenges, in our judgment,	
	represent a serious threat to Bendjedid. He remains first among equals in Algeria's consensus-style government and still	
	maintains the support of most of the military. Nevertheless, the	
	President almost certainly has lost some standing among peers. For example, Bendjedid was widely expected to announce	5 X 1
	significant personnel changes in the FLN at its recent Central	
	Committee meeting, but no changes were made. the hardliners successfully resisted 25	5 X 1
	Bendjedid's efforts, producing a stalemate between the two sides.

	We expect Bendjedid to act cautiously and to try to placate 25 his opponents. He will have increasing difficulty imposing his	> Χ 1
	agenda for political and economic reform on the FLN.	
	Nevertheless, during the rest of the year we do not foresee the political opposition gaining the military support necessary to

	The Soviets will almost certainly try to influence	
	developments. Algerian-Soviet relations have deteriorated under Bendjedid, and Moscow would like to reverse his turn toward the	
	West. They almost certainly view Bendjedid's current problems as	25X1 25X1 25X1 25X1
