2 October 1986

MEMORANDUM FOR: Members of the Interagency Working Group  
on Conventional Arms Control

FROM: [Redacted] 25X1  
Special Assistant, Regional Issues Group  
Office of Soviet Analysis

SUBJECT: Selected Data on Soviet and Non-Soviet Warsaw  
Pact Ground Forces Maneuver Divisions in the  
Atlantic-to-Urals Zone.

25X1

1. Attached are data requested by the Bureau of Politico-  
Military Affairs, Department of State, on the Soviet and non-  
Soviet Warsaw Pact (NSWP) maneuver divisions located within the  
zone extending from the Atlantic Ocean to the Ural Mountains.<sup>1</sup>

25X1

25X1

<sup>1</sup> This attachment presents data on all Warsaw Pact maneuver divisions within  
the zone. It does not include information on one NSWP and 14 Soviet artillery  
divisions located in the zone. The specific types of units included are  
motorized rifle (or mechanized), tank (or armored), airborne, and sea landing  
divisions. Also, included is a new army corps located in the Belorussian  
Military District of the USSR. This new corps is a large maneuver formation

3. The attached notebook presents estimates of ground forces structure, manpower, and combat equipment for each major maneuver division, and summary tables for each Soviet military district, Soviet group of forces, and NSWP national force. These summaries distinguish between the equipment in active versus mobilization base (inactive) divisions because of the general disparity in the modernity and quantity of combat equipment in these two parts of the force. Inactive divisions are usually equipped with smaller quantities of much older models of combat equipment than are in active divisions. [redacted]

25X1

25X1

4. If you have any questions or comments concerning the enclosed information, you may contact me [redacted]
