PRINTING AND PHOTOGRAPHY DIVISION
WEEKLY REPORT FOR PERIOD ENDING
18 August - 24 August 1983I. Items or Events of Major Interest that have Occurred During the
Preceding Week

A. Digital Prepress: Training of P&PD personnel on the Color Scanner is entering the second week. Although no live material has been produced at this juncture, the results of the test separations produced by the trainer have been excellent.

B. World Factbook: A representative of the Office of Central Reference/Information Services Group (OCR/ISG) has requested duplicate tapes of the ETECS data file for the 1983 version of the World Factbook. OCR is making the request in order to respond to a requirement to establish a database for the National Security Council. This is a followup request to one previously made to produce tapes for the DOD.

C. DO Photographic Support: OL/P&PD Photography Branch responded to an immediate request from the DDO/SE. A request for 8,500 black and white 8 x 10 prints was received on Thursday, August 18, and delivered the following Monday.

D. Color Lab Renovations: On 24 August representatives from Logistics met with the contractor and GSA to schedule a completion date for the few remaining tasks for the color lab renovation. After a review of a list of remaining items, it was agreed that all work should be completed by 15 September 1983.

II. Significant Events Anticipated During the Coming Week
