25X1 c. Relocation of Headquarters Telephone Cables: P&SCB has received a priority request from Office of Communications (OC) to contract for the relocation of telephone cables that presently run through the area where the new headquarters building will be located. It appears at this point, that the contract will be sole sourced to the Chesapeake and Potomac Telephone Company of Virginia (C&P), because they own the telephone cable and the junction boxes which by Federal Regulations gives C&P the option to perform this service. Further research is being done in this area. A fact finding session will be held with C&P on 10 April 1984 and an acceptable cost proposal is anticipated by 12 April 1984.

25X1 3. Significant Events Anticipated During the Coming Week:
