This is to advise you that on July 23, 1968, The Psychiatric Institute was accredited by the Joint Commission on Accreditation of Hospitals for a period of three years. It is our firm intention to maintain the high standards of patient care which the Joint Commission recognized as currently being provided by this hospital. We would also like to emphasize that we are deeply committed to the continuing task of improving the quality of care that our patients may reasonably expect to receive. In this regard, we hope that you will feel free to let us know anytime you have reason to believe that we are no longer adhering to that commitment.
