Director, Intelligence Community Staff  
Washington, D. C. 20505

Dear Al:

Please express my appreciation for a job well done to each Intelligence Community Staff participant in the recently completed Future SIGINT Capabilities Study (FSCS), and for their contribution to our understanding of future intelligence needs. The FSCS will provide a valuable guideline for an investment strategy that will help ensure that the United States SIGINT System will remain viable through the year 2000. It will also impact on the production of intelligence information for national decisionmakers and military commanders. Those Intelligence Community Staff personnel named in the enclosed listing may well be proud of their contribution to this Herculean effort.

25X1

While it is somewhat unfair to single out individuals for special recognition when so many made significant contributions to specific sections. I wish to cite

[Redacted]

for their exceptional contribution to the entire Study.
