Dear Curt:

I read with interest the proposals contained in your memorandum forwarded on 23 August. I have taken the liberty of sharing your thoughts with several members of my staff who deal intimately with the Central American issue. As you are aware, I am constantly working with my staff to monitor our progress and the options open to us. I found your proposals to be intriguing and in some respects quite similar to my thinking. I appreciated receiving your views and will keep them in mind during my ongoing discussions.

Thank you very much for your thoughts which, as you know, are greatly appreciated. Please do not hesitate to stay in touch.

Yours,

*WJC*

William J. Casey
