**Guided Munitions Test and
Evaluation Range, Kraskovo
Training Area 1, USSR (S)**

Description

This model depicts a guided munitions test and evaluation range in a tank training area at Kraskovo Training Area 1, USSR.* The range includes a rangehead containing a range control building and two data collection buildings that are connected by cable to six in-line downrange target/diagnostics positions, a service road that extends the entire length of the range, a fence-secured open vehicle storage area, a fence-secured POL point, and a support area. This is the only range dedicated to the testing and evaluation of precision guided munitions that has been identified in the USSR. (S/WN)

This model has been created in response to Community interest in Soviet precision guided munitions. The model has been prepared on the basis of detailed analysis and specifications provided by the Intelligence and Threat Analysis Center, US Army. The model components have been produced to scale in accordance with photogrammetrically derived values. (S/WN)
