SUPPLIER QUALITY ENGINEER

AMECOM, a Division of Litton Systems, Inc., a rapidly growing world leader in RF, Telecommunications and Electronic Warfare, has an immediate opening for an in-plant Supplier Quality Engineer, with some local source inspection.

Successful individual will have 5 years experience in the quality discipline of Military Avionics and Shipboard Electronic Systems, as well as working experience with MIL-Q-9858, MIL-I-45208A and MIL-STD-1535. Responsibilities for this position include dispositioning of incoming discrepant material in the capacity of Chairman, Preliminary Material Review Board (PMRB), providing corrective action follow-up for Material Review Board (MRB) action from suppliers and Amecom; facilitating and coordinating engineering product and/or specification changes to provide discrepant material problem resolution; and reviewing purchase orders and assigning applicable quality requirements to them. A BS degree or equivalent experience is also required.

AMECOM provides highly competitive compensation and benefits and superb opportunities for professional growth and advancement. To apply send your resume in confidence to: DEBBIE MILLER
