

DIRECTOR OF CENTRAL INTELLIGENCE
Committee on Imagery Requirements and Exploitation

DCI/ICS-82-4521

3 March 1982

STAT

MEMORANDUM FOR: Chairman, DCI Security Committee

SUBJECT: Comment on Draft DCID 1/11

REFERENCE: Chairman, SECOM Note of 10 February 1982 Forwarding
DCID 1/11 Draft #3 of 2 February 1982

1. I have no substantive problems with referenced draft of a revised DCID 1/11. I find the thrust of your draft to be compatible with the understanding between us on the successful interworking of SECOM and COMIREX.

2. I would like to pass on the following editorial comments prepared by my staff.

o Re Para 1c.: Suggest first line read: "Reviewing and advising on the security aspects of policies ... etc."
Reason: clarity.

o Re Attachment 3:

- Paragraph 1. The text moves from specific ("certain classified intell info..") to comprehensive-general (all compartmented intell). Reverse is needed. No problem with paragraph's substance.

- Paragraphs 2 and 3. As discussed between [redacted] and [redacted] a clarifying rewrite is needed to communicate what is actually involved in these two paragraphs. Have difficulty in conceptualizing the functions mentioned. No substantive problems, however.
