Directory of Polish Officials

A Reference Aid

LDA-11133
August 1986

PREFACE

This is an informal updated edition of the *Directory of Polish Officials*, last published in August 1983. It identifies individuals who hold positions in selected party, government, economic, scientific, and public organizations. It also provides a guide to the internal structures of some of these organizations.

Dates of Information. The date an individual either assumed or was first identified in a position is listed in the "position" column. Dates of birth are listed in the "birth" column for selected officials.

Transliteration. The Polish language uses the Latin alphabet with the addition of a variety of diacritics to indicate pronunciation. This directory, however, omits all diacritics. It follows the system authorized by the US Board of Geographic Names for transliteration of place names, except in instances where another word is more easily recognized and commonly used, such as "voivodship" instead of "województwo."

Personal Names. Polish names consist of a given name and a family name. A surname ending in the suffix -ski is changed to -ska for women. This publication lists the full name of each individual whenever it is known. The family name appears first in bold type, followed by the given name. In rare instances, a family name consists of a double name that appears either in a hyphenated form or as two words.

Additional Directory Entries. The directory includes political party affiliation for each individual whenever it is known or can be assumed from the position held. It also lists some academic degrees and military and ecclesiastical ranks. The names of organizational components are standardized. Street addresses and transliterated names are provided for some organizations. Many economic and commercial organizations are listed by a cable designation or by a commonly known transliterated name.

An index to major organizations and a personality index follow the directory listing. Duplicate names in the personality index refer to different individuals.

II. Central Government

Polska Rzeczpospolita Ludowa

PRL

The Soviet Union established the Polish Committee of National Liberation in July 1944 and recognized it as the provisional government of Poland on 5 January 1945; it was renamed the Polish Republic after January 1947; and gained its present name of the Polish People's Republic on 22 July 1952. Land area is 312,683 square kilometers, with an estimated population of 36,700,000 as of July 1985.

Chairman	Komender, Zenon; PAX	Jan 85 21 Oct 23
Deputy Chairman	Ryba, Marian, Gen. Bde.	Jan 85

III. Parliament

Sejm

The Sejm has a long history in Poland. Following a national referendum in mid-1946, it became the unicameral body of the parliament. Controlled national parliamentary elections in January 1947 resulted in Communist domination of the Sejm and gave the Communists legal control of the government. Nominally the highest organ of state authority, the Sejm approves the government constitution, and selects the chairman and members of the Council of State and Council of Ministers.

		Position	Date of Birth

V. Provincial Party and Government Officials

Poland is divided into 46 provinces (voivodships), each of which is named for its capital city, and three municipalities with provincial status. Each province has a governor (appointed by the Premier and responsible to the local people's council), a PZPR organization, a government apparatus (Provincial People's Council), minority parties, a mass organization unit (PRON), and a youth league committee (ZSMP).

	Position	Date of Birth
