-- A major milestone was accomplished this week with the printing and distribution of individualized benefits statements for all Agency employees. Published under the auspices of the Office of Personnel with considerable support from the Offices of Information Technology, Logistics, and Finance, the annual statements provide employees with comprehensive, personalized information on their entitlements and benefits in such areas as health and life insurance, retirement and disability annuity estimates, and survivor benefits. Such statements are a major communication tool in private industry and represent a significant step forward in our efforts to keep employees informed and up-to-date on important matters affecting them and their personal planning.

-- Work has started on the Headquarters compound security control centers, roadway modifications and associated roadway repaving. Specifically, the contractor has proceeded with grading, placing sewer lines and constructing the foundation for the Route 123 Security Control Center. Work will commence shortly on new lighting and recurbing the south and east roads on

the compound as well. An employee notice will soon be disseminated to explain these developments to all Headquarters employees.

-- PMCD will be meeting with Directorate representatives this week to finalize the criteria to be used in converting our secretarial positions and people to the new secretarial system. Conversion of OP and OF software to accommodate the new system is underway. OP is presently formulating a response to some informal questions from the HPSCI Staff on the program, an outgrowth of discussions with them some weeks ago.

14. The Office of Information Services reports that two lobbying groups are requesting information on a Nicaraguan disinformation campaign as reported in the press. One group, the Washington Legal Foundation (WLF), claims that it "enthusiastically supports U.S. efforts to restore democracy and thwart the establishment of a Soviet surrogate-state in Nicaragua...." The other group, the Washington Office on Latin America (WOLA), on the other hand, is concerned that the Government of Nicaragua plans to use them as part of their campaign, i.e., what the WLF refers to in their letter as "useful fools."

MEMORANDUM FOR: Director of Central Intelligence
FROM: David D. Gries
SUBJECT: Weekly Report

25X1

1. When the Congress returns from recess, the intelligence committees will turn to our authorization bill. HPSCI will report out its version by mid-month; SSCI, by month's end.

25X1

Administration Proposals Included: FBI CI access to bank records; FBI access to state and local government criminal history record information (given to CIA, DoD and OPM last year); one year extension of SecDef personnel termination authority for DIA employees; DIA "medivac" authority; authority for DoD to "recycle" proceeds from certain CI operations; and clarification of authority of Defense Mapping Agency to enter into mapping agreements with foreign countries.

Administration Proposals Excluded: CIA/NSA/DIA personnel authority to deal with drug & alcohol abuse and interlocutory appeal authority; DoD proprietaries authority; FBI access to telephone toll records; and Archivist provision (non-publication of notice of certain record destruction schedules in Federal Register).

Inclusion of Proposals Deleted from Final Administration Bill: DoD/FBI authority to expend funds to bring foreign CI officials to the U.S. for consultations; DoD military HUMINT collector award; "boilerplate" provision concerning authority to conduct intelligence operations (deleted from the Administration's draft bill at NSC insistence).

HPSCI-Initiated Proposals: Survivor's annuity for former spouses of CIARDS participants divorced prior to 1982.

25X1

~~SECRET~~

SECRET

SSCI Bill: The SSCI is not as far along in drafting its bill as the HPSCI. Generally, it appears that SSCI will include in its bill all the Administration proposals which HPSCI is including and exclude those which HPSCI is excluding (although HPSCI-deleted interlocutory appeal and Archivist provisions may have some very tentative SSCI support). SSCI will hold a hearing on several of the provisions, possibly in conjunction with the "mark up." SSCI is not expected to include the HPSCI-initiated former spouses provision.

3. We are working with appropriate offices on the following hearings: counterintelligence, 9 April (SSCI); DDCI confirmation, 10 April (SSCI); security countermeasures, 16 April (SSCI); covert action, 17 and 23 April (SSCI); third world requirements, 20 April (SSCI); and NFIP overview, 24 April (SAC).
