THE  
**SENIOR  
SEMINAR**  
TWENTY-EIGHTH  
SESSION

**FOREIGN SERVICE INSTITUTE  
U.S. DEPARTMENT OF STATE**

## **PURPOSE**

---

**The Senior Seminar is the most advanced executive development program for career officials of the United States Government. The ten-month program has been conducted annually since 1958 by the Foreign Service Institute of the Department of State.**

**The Seminar is designed to provide an intensive professional development experience for senior officials, most of whom have served abroad and expect further foreign assignments. The curriculum stresses the relationship among domestic, foreign and national security policies. Seminar Members study political, economic, social, regional and cultural trends in the United States, relating them to international issues and questions of national security. This is done through extensive readings, travel, the preparation of Individual Research Projects, and discussion units featuring leaders and opinion makers in domestic and foreign affairs.**

**The purpose of the Seminar is to ensure that our top career officials who deal primarily with foreign policy and national security have a comprehensive understanding of the domestic assumptions which sustain our foreign policy. This will enable them to represent American interests abroad more effectively and to take domestic attitudes into account more accurately in pursuing a foreign policy which meets our national interests.**

**The Twenty-eighth Session of the Senior Seminar is composed of 29 Members, 14 from the Department of State and the others from the United States Information Agency, the Department of Agriculture, the Department of Commerce, the Department of Defense, the Agency for International Development, the Central Intelligence Agency, Federal Bureau of Investigation, Intelligence Community Staff, the National Security Agency, and five uniformed Services. Members rank from Civil Service GS-15 to GS-18 or equivalent in the Foreign Service or military.**

---
