The Honorable William J. Casey  
Director, Central Intelligence Agency  
Washington, DC, 20505

DVA  
FILE: 30-1

Dear Mr. Casey:

The Federal Aviation Administration (FAA) is considering contracting services for the operation of at least one of our several communications centers. Contracting for this type of service is provided for in the Industrial Security Regulation, DOD 5220-22R; NCSC-2, National Policy on Release of Communications Security Information to U.S. Contractors and other U.S. Nongovernmental Sources; and OMB Circular A-76, Policies for Acquiring Commercial or Industrial Products and Services Needed by the Government.

A question has arisen concerning the propriety of this contracting effort as some message traffic from your agency--which would be handled by the contractor--is marked "NO CONTRACT." It is, of course, imperative that all messages now received by FAA from your agency continue to be received unabated.

Can we move forward on this contracting effort as far as your agency is concerned, or must we discontinue the effort based on your agency's need for withholding any contractor's access to "NO CONTRACT" information? Perhaps there is something that can be done to assure you reasonably of a contractor's suitability for handling and safeguarding "NO CONTRACT" information.

As an early decision must be made concerning this matter, I would appreciate receiving your comments/recommendations as soon as possible. Should there be a requirement for verbal communications on this subject, either Mr. John Ryan or Mr. Norman Cherry of the Office of Civil Aviation Security should be contacted. Their telephone numbers are (202) 426-8768 or 426-8146.

Your consideration of our situation is greatly appreciated.

Sincerely,

Donald D. Engen  
Administrator
