

Central Intelligence Agency
Washington, D.C. 20505

23 July

Executive Director

J. McMahon came in with attached and said he was appalled that we would select a firm that is government owned and he is almost tempted to not select them, but would be willing to listen to your arguments. He said to make sure provisions by Sporkin are complied with in the future and in the future he does not want to do business with foreign firms and thinks we need a policy on any dealing with partially owned foreign firms.
