

# McLEAN CITIZENS ASSOCIATION

P. O. BOX 273  
MCLEAN, VIRGINIA 22101

October 22, 1984

To: Members, MCA Transportation Committee

From: Lilla D. McC. Richards, Chairman

Subject: Thursday, October 25, Meeting at McLean Community Center, Swinson Lounge

Note: Public invited and encouraged to attend!

## AGENDA

1. CIA Alternatives 2 and 4: Larry Myers of the CIA's New Building Project Office will be present to answer our questions about the study, "Roadway Improvements Relating to Expansion of the CIA Headquarters." I have tried to make sure each of you has a chance to read it before Thursday's meeting. Each of our limited number of copies has a distribution list on it, so please read it and get it to the next Committee member as soon as possible. If you have it as of Thursday, please bring it to the meeting, so we can redistribute it to members of the MCA Board.

Please come prepared to vote on alternative 2 vs. alternative 4, and with any stipulations in writing. If Wednesday night arrives and you still haven't received a copy of the study, see me at the Candidates Night meeting at the Community Center and I'll give you my copy. Residents of the CIA area are urged to come to our meeting.

2. Annual Plan Review: As we had previously discussed, one of the changes we want made in the Master Plan is to clarify that Route 123 should remain four lanes plus turning lanes east of Old Dominion Drive. Committee members who have other proposals should be prepared to bring them up at the meeting, although we will not vote on them until after notice has been given in the agenda of the November 27 meeting.

3. Chain Bridge Road: Sidewalk reconstruction on both sides of Chain Bridge Road between Old Dominion Drive and Dolley Madison Boulevard at Churchill Road will be completed soon. We need to ask the Board of Supervisors to pass a resolution designating the sidewalk on the south side of Chain Bridge Road as a bike trail, to carry out the intent of the Chain Bridge Road Committee and the McLean Trails Plan.

4. Tysons II: Chairman's report on final proffers.

5. Tysons/Dulles Plaza: Postponed. Our message is getting through. See August 28 letter/agenda.

6. Tysons Height Study: Draft released October 12. As we suspected, shows 75 feet along south side of Dulles Road except for Tysons/Dulles Plaza "gateway" site. Note that this staff proposal has not been approved by citizens, the Planning Commission, or the Board of Supervisors, but has been the basis for approvals of 1st American Bank, Tysons II, etc., and the staff report favorable to a 157-foot height for Tysons/Dulles Plaza.

7. Other issues raised by Committee members.
