

Central Intelligence Agency

Washington, D. C. 20505

1 May 1985

Mr. Donald B. Dinger  
Deputy Director  
U.S Army Foreign Science  
& Technology Center  
Charlottesville, Virginia 22901-5396

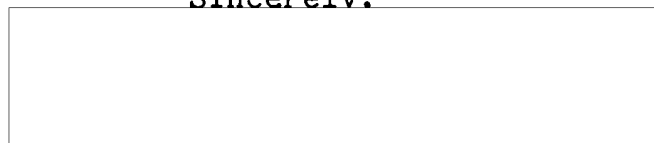

Dear Mr. Dinger:

On behalf of our staff and students involved in the Agency's first Seminar on Science and Technology Forecasting, I would like to express our appreciation to the Foreign Science & Technology Center for supplying two expert speakers. Messrs. Stering and Kane both made fine presentations on FSTC's activities in S&T forecasting. The Seminar's success was due in-large to the cooperation we've received from organizations like FSTC.

A senior staff member of the seminar commented that their briefings were among the most relevant parts of the Seminar. The Seminar participants rated both speakers highly in course critiques.

We appreciate FSTC's willingness to support the Agency's training programs and I hope we can continue to call upon your analysts for their expertise.

Sincerely,

Director  
of  
Training and Education
