protessionais predict. Some of them expect strikes to set back the econo-my's recovery from the recession. Wage settlements could kick off a new surge of inflation. "I'll just pray a lot," says W. J. Usery Jr., director of the Federal Mediation and Conciliation Service, who will bear a big part of the re-

ponsibility for bringing the unions and corporations to terms.

THE PREDICAMENTS of Wood-cock, president of the United Auto Workers, and Bommarito, president of the United Rubber Workers, show how drastically the negotiating cli-mate has changed since 1973. Similar tales of woe are told by Frank Fitz-simmons of the International Brotherhood of Teamsters, Paul Jennings of the International Union of Electrical Workers and leaders of other

unions representing the 4.4 million workers bargaining in major units this year.

When Woodcock negotiated the 1973 contracts that will expire next September, the national unemploy-September, the national unemploy-ment rate was 4.8 percent, only 1.9 percent of auto workers were jobless and overtime was fattening the pay envelopes of UAW members. If the workers worried about layoffs, they were reassured by the industry's See NEGOTIATIONS, A-14

CIA Documents Reveal Training Of Area Officers

By Allen Frank in Star Staff Write

The Central Intelligence Agency has trained officers from at least has trained clicers from at least three metropolitan area police de-partments to crack safes, conduct burglaries and replaster walls dam-aged during surreptitious entries and bugging operations, according to agency documents obtained by The Washington Star.

The documents, released by the CIA after a six-month review of a Freedom of Information Act request, also show that nearly every police department in the metropolitan area — many more than previously ac-knowledged — received CIA training and assistance during the late 1960s and early 1970s.

Several memos indicate that the CIA and the local police wanted their unusual relationships to remain se-cret, despite inquiries from reporters and members of Congress.

BESIDES THE REVELATION of BESIDES THE REVELATION of the extent of CIA activity in local po-lice departments, the chief signifi-cance of the assorted documents is that they provide many details about CIA-police relationships described without much elaboration in the Rockefeller Commission report on CIA activities released last June. CIA officials "sanitized" the 189 documents before releasing them to The Star. Nearly every document contained some deletions, and some vere missing entire paragraphs or

were missing entire paragraphs or pages. Another 46 documents re-quested were not released for securi-

quested were not released for structure ty reasons. The Rockefeller report disclosed that police in the District, Fairfax, and Montgomery, in addition to Chicago, Miami, Los Angeles, New York, and Boston, received training from CIA agents, as did Virginia and Maryland State police.

The newly obtained documents contain information not specifically mentioned in the Rockefeller report hat officers from Alexandria, Ap-lington. Baltimore, Fairfax City, Falls Church and Prince Georges

County police also received training assistance.

Nearly a dozen police departments in California, mostly in the San Diego, San Clemente, Los Angeles area also got CIA training and equip-ment loans, the documents show.

Senators, Ford Seek Reforms In Intelligence

By Nicholas M. Horrock

The Senate Select Committee on Intelligence and the Ford adminis-tration have agreed to work out joint legislative proposals for the reform of the United States intelligence

of the United States intelligence community, according to Senate and White House officials. The unique plan to write legisla-tion satisfactory to both the Senate and President Ford emerged during a series of private meetings between Sen. Frank Church, committee chairman, D.-Idaho, Sen. John Tower, vice chairman, D.-Tex., their House officials in December and early January. The plan has Ford's approval.

approval. It was one of the announcements at It was one of the announcements at a top level White House meeting yes-terday on intelligence. The closed-door session, attended by the princi-pals of the affected agencies, is the first time that the vast options for re-form and reorganization of intelli-gence in this country were gathered in one briefing for the top level offi-cials and the President. FORD WAS NOT expected to make final decisions on executive orders, yesterday, but a series of orders, some of which will remain secret, may follow shartly, senior White House officials said. their contracts, which raised wages in step with rising prices. These COLA (cost-of-living adjustment) clauses have added about \$1 an hour to auto wages since 1973, more than scheduled wage increases. The rubber workers won bigger scheduled wage increases than auto workers in 1973, but they did not ob-tain a COLA clause. Their wage in-

creases have been wiped out by inflation and they have fallen behind their traditional wage parity with the auto industry. Bommarito, under fire within his

union, will fight this time for big wage increases to catch up with the rank-and-file's losses to inflation, plus a COLA clause to protect against future rises in the cost of liv-

ing. The rubber companies realize they will have to pay heavily for a settle-ment, but the union's demands will be so big that management will balk at least initially. "It will take a mira-
