DDI CHRONO

DDI #02183-84/1

11 April 1984

MEMORANDUM FOR: Director of Central Intelligence  
 FROM : Deputy Director for Intelligence  
 SUBJECT : Scenarios for Dramatic Change/The Machinery  
 of Takeover

1. Attached are the next two papers on the machinery of takeover that you asked us to do several months ago -- these are on Peru and Morocco. With this package we will now have completed Peru, Morocco, Mexico, Pakistan and the Philippines. We owe you a final one on Egypt that will be ready in about three weeks. What do you think of publishing these in a single hardcovered document titled something like "Scenarios for Dramatic Change in Key Third World Countries"?

25X1

2. A fair amount of work has gone into these and it seems to me that they are sufficiently provocative -- and the lists of indicators cogent enough -- that they would be useful for analysts in other intelligence agencies as well as for policy people. Your reaction?

25X1

Robert M. Gates
